Partner Ecosystem

- **Total Partners:** 179
- **New Partners (Last 90 Days):** 38
- **Source:** Partnerbase

Insight: Rapid partner growth suggests aggressive GTM expansion and ecosystem lock-in strategy.

Investors & Ownership

ZoomInfo has been backed by major **private-equity and institutional investors**, including:

- **The Carlyle Group**
- **TA Associates**
- **22C Capital**

1.2 Corporate structure

- **Headquarters:** 330 W Columbia Way or near 805 Broadway St, Suite 900
- **Year Founded:** In 2007, as DiscoverOrg
- **Rebranding:** February 2019 (acquired Zoom Information Inc. and rebranded as ZoomInfo)
- **IPO Date:** 4 June 2020. Exchange: NASDAQ Global Select Market, Price was \$21 per share, Total raised approximately \$934.5 million

1.3 Business Model

ZoomInfo's business model is a SaaS platform selling access to its vast B2B database of company and contact info (emails, phones, intent data, org charts) to sales, marketing, and recruiting teams, enabling them to find ideal customers, personalize outreach, and accelerate revenue through subscriptions, often integrating with CRM systems. They generate revenue by providing actionable insights (like buyer intent signals, AI-driven data) that help go-to-market (GTM) teams be more efficient, find leads, and close deals faster, effectively turning data into strategic assets. (Source: ZoomInfo)

1.4 Employee Count

- **Employees:** 4,377 associated members. (source: LinkedIn)
- **Customers:**
 - ~35,000+ companies worldwide
- **User Base:** Sales, Marketing, Recruiting, Revenue Operations, GTM teams
- **Global Presence:** Offices Across 6 Continents, including North America, Europe, and Asia. (Source: [Builtin.com](https://builtin.com))

Insight: Revenue stability indicates strong renewals despite legal and market pressures.

1.5 Company Goal

According to company sources, "ZoomInfo's mission is to provide every company with a 360-degree view of their ideal customer, empowering each phase of their go-to-market strategy, and driving their ability to hit their number.

2. Founder information

2.1 Primary Founders

- **Founders:** Henry Schuck and Kirk Brown. (Src Zoominfo)

Henry Schuck

- **Background:** Henry Schuk founded DiscoverOrg in 2007 at the age of 23 while Attending Law school
- **Current Role:** Henry Schuk is the founder, Chairman, and CEO of ZoomInfo Technologies Inc.
- **Education:** The Ohio State University
- **Net Worth:** \$187 Million. Source: Gurufocus. Became a billionaire in June 2020 (as IPO 2020)
- **Stakeholder:** 10% ownership. (as IPO 2020)
- **LinkedIn:** <https://www.linkedin.com/in/hschuck/>
- **Emails:** (OSINT-identified):
 - h.schuck@zoominfo.com
 - henry@zoominfo.com
 - henry.schuk@zoominfo.com

- **Co-Founder**

Kirk Brown

- **Background:** Co-Founded DiscoverOrg with Henry Schuck in 2007
- **Previous Experience:** Former caddy on the PGA Tour
- **Education:** University of Nevada, Las Vegas (Graduated 2005)
- **Stakeholder:** 7.3% Ownership (as IPO 2020)
- **Net Worth:** Became a billionaire in June 2020 (as IPO 2020)

2.2 Founding Story

Henry Schuck was 23 years old when he and college classmate Kirk Brown put \$25,000 on their credit cards to start a company selling business-intelligence data. The company was bootstrapped initially using its own funds. (According to Bloomberg)

2.3 Company Evolution

- 2007: DiscoverOrg was founded by Henry Schuck and Kirk Brown
- 2017: Acquired RainKing
- 2018: Acquired NeverBounce and Datanyze
- February 2019: Acquired Zoom Information Inc. and rebranded as ZoomInfo
- 2019: Acquired Komiko
- 2020: Acquired Clickagy and EverString Technology; IPO in June
- **2021 Acquisitions:**
 - Insent (June)
 - Chorus.ai (July)
 - RingLead (September)

Source: Crunchbase

2.4 Historical Background

The "Zoom Information" name originated from a separate company: "Zoom Information" was established in 2000 as Eliyon Technologies by founders Yonatan Stern and Michel Decary, and in August 2017 was acquired by Great Hill Partners, a private equity firm, for \$240 million.
(Source: startupnationcentral)

3. Ownership & Financial Structure

3.1 Public Ownership Structure

- **Stock Exchange:** NASDAQ
- **Ticker Symbol:** GTM (changed from ZI)
- **Company Type:** Publicly traded (since June 4, 2020)
Source: NASDAC

3.2 Major Stakeholders (as of 2020 IPO)

- Henry Schuck (Founder/CEO): 10% stake
- Kirk Brown (Co-Founder): 7.3% stake
- Institutional investors and public shareholders: Remaining percentage

3.3 Recent Institutional Activity

Bank of New York Mellon Corp raised its position in ZoomInfo Technologies Inc. by 7.1% during the second quarter.

Assenagon Asset Management S.A. raised its stake in shares of ZoomInfo Technologies Inc. by 127.4% in the 3rd quarter, according to its most recent Form 13F filing with the SEC. Source: Mellon 13 Filing

3.4 IPO Performance

The 2020 IPO was highly successful: "The Nasdaq-hosted ipo raised \$934.5 million. Share prices more than doubled in the initial days of trading, with Shares of their firm, ZoomInfo Technologies Inc., surged 15% to \$44.76... boosting its market value to \$17.1 billion, more than doubling since last week's initial public offering."

4. COMPANY PARTNERS & INTEGRATIONS

4.1 Major Technology Partner

CRM Integrations:

- Salesforce
- HubSpot (native integration)
- Microsoft Dynamics

Marketing Automation:

- Marketo

- Eloqua
- Pardot

Sales Engagement:

- Outreach
- Salesloft

Source: Zoominfo

4.2 HubSpot Partnership Details

The HubSpot integration is one of ZoomInfo's most prominent partnerships. "HubSpot is a leading CRM platform that provides software and support to help businesses grow better."

Integration Capabilities:

- Bidirectional data sync with HubSpot CRM
- Automated contact enrichment
- Intent signal tracking
- Chrome extension overlay
- API access for custom development

The integration allows users to "enrich existing leads with valuable data, such as company information, job titles, and contact details, ensuring you have a complete picture of your prospects."

4.3 Integration Platform Partners

"ZoomInfo also has out-of-the-box integrations for the following integration-platform-as-a-service (iPaaS) vendors," including Zapier, Workato, and other automation platforms.

4.4 Customer Community

ZoomInfo maintains "a community of 300,000+ users" who contribute to data collection and validation.

Source: 4.2, 4.3, 4.4 ZoomInfo

5. DETAILED COMPANY OPERATIONS

5.1 Product Suite

ZoomInfo Sales:

- Contact and company database access
- Advanced search and filtering
- Organizational charts
- Direct dial phone numbers
- Email addresses

ZoomInfo Marketing:

- Account-based marketing tools
- Website visitor tracking
- Form enrichment
- Campaign analytics

ZoomInfo Operations:

- Data orchestration
- CRM enrichment
- Workflow automation

ZoomInfo Talent:

- Recruiting intelligence
- Candidate sourcing

ZoomInfo Copilot:

Launched as an AI-powered feature, "Copilot delivers insights, AI-guided recommendations, and automated actions, helping teams focus on top accounts, engage faster, and win more deals with ease."

5.2 Data Collection Methods

According to the company, "ZoomInfo gathers data through proprietary technology, machine learning, public sources, and a contributory network to ensure accuracy and freshness."

5.3 Customer Base

"ZoomInfo delivers accurate, real-time data, insights, and technology to more than 35,000 companies worldwide."

5.4 Geographic Operations

"The company operates offices in the US, Israel, Canada, India, and the UK."

5.5 Data Compliance

The company emphasizes its compliance credentials: "We are a recognized leader in data privacy, with industry-leading GDPR and CCPA compliance and numerous data security and privacy certifications."

5.6 Database Size

The platform provides access to extensive B2B data across millions of companies and contacts globally.

6. COMPETITOR ANALYSIS

6.1 Primary Competitors

Direct Competitors:

- **Apollo.io** - All-in-one sales intelligence and engagement platform
- **LinkedIn Sales Navigator** - Professional network-based prospecting
- **Cognism** - GDPR-compliant B2B data provider (strong in EMEA)
- **Lusha** - Contact data provider with browser extension
- **Clearbit** (acquired by HubSpot) - Data enrichment platform
- **Seamless.AI** - Real-time B2B contact data
- **Lead411** - Intent data and contact information
- **UpLead** - B2B contact data with verification
- **SalesIntel** - Human-verified contact data
- **RocketReach** - Contact information database

Source: Cognism

6.2 Competitive Positioning

ZoomInfo's Strengths:

- Largest database among competitors
- Advanced intent data capabilities
- Enterprise-focused features
- Comprehensive organizational charts
- Strong North American coverage

Common User Comparisons:

- Apollo.io distinguishes itself with a unified platform that combines contact discovery, engagement tools, and automated workflows, making it a versatile

choice for teams looking for all-in-one sales acceleration, while ZoomInfo's strength resides in its extensive database and advanced segmentation features, enabling large sales teams to execute highly targeted campaigns with precision.

- Lusha is faster to onboard, easier to use, and more cost-effective — with strong data accuracy, verified phones, and CRM-friendly integrations that ZoomInfo often overcomplicates."
- Cognism is better for European outreach and compliant sales prospecting. ZoomInfo has stronger US intent data, but Cognism leads in EMEA.

Source: TrustRadius

6.3 Pricing Comparison

ZoomInfo is generally positioned at the premium end of the market. "ZoomInfo's pricing tends to be more premium, reflecting its expansive data sources and enterprise features, which might be overkill for smaller teams but invaluable for larger organizations.

Source: Genesy.ai

6.4 Data Accuracy Considerations

ZoomInfo has a large database, but users frequently report outdated or unverified contacts, especially outside North America. Source: Scalelist

7. Market Value & Financial Performance

7.1 Current Market Metrics (as of December 2025)

Stock Performance:

- **Market cap:** 3.18(Nasdaq), \$3.25 B. (Src companiesmarketcap)
- **Per Share:** \$10.21.
- **Ticker:** NASDAQ: GTM. (Src companiesmarketcap)

Legal Claims & Risk Exposure ⚠️

Privacy & Data Litigation

- **\$30.1M Privacy Class-Action Settlement (Nov 2024)**

- Claims under Illinois, California, Indiana & Nevada right-of-publicity laws
- Individual payouts: \$108 – \$1,942
- **Ongoing Privacy Cases (2024–2025):**
 - Washington Personality Rights Act litigation
 - Datanyze subsidiary lawsuits (some resolved, some active)

Intellectual Property

- **Patent infringement lawsuit (March 2025)**
 - Plaintiff: ZoomInfo
 - Defendant: **Apollo.io**
 - Claims: web-crawling & predictive analytics patents

Employment & Governance

12. KEY FINDINGS SUMMARY

12.1 Company Status

- ✓ Established, publicly traded company (NASDAQ: GTM)
- ✓ Founded 2007, IPO 2020, currently operational
- ✓ Strong brand recognition in B2B sales intelligence space
- ✓ Significant market presence with 35,000+ customers

12.2 Leadership

- ✓ Original founders remain involved (Schuck as CEO)

- ✓ Both founders are billionaires from IPO success
- ✓ Stable executive leadership since founding

12.3 Financial Health

- Market cap declined significantly from the 2020 peak
- Still maintains a multi-billion dollar valuation
- Mixed analyst ratings (6 buy, 5 sell)
- Continued revenue generation and customer base

12.4 Competitive Position

- ✓ Largest database among major competitors
- ✓ Strong enterprise customer base
- △ Premium pricing may limit SMB adoption
- △ Data accuracy concerns in some reviews

12.5 Risk Factors

- △ Multiple ongoing lawsuits related to data practices
- △ Registered data broker status brings scrutiny
- △ Market cap volatility
- ✓ GDPR/CCPA compliance claimed

13. CONCLUSION

ZoomInfo Technologies Inc. is a significant player in the B2B sales intelligence market with an established market position, substantial customer base, and continued innovation in AI-powered sales tools. The company has successfully transitioned from a bootstrapped startup to a publicly traded enterprise, though it faces challenges including market valuation pressures, legal scrutiny over data practices, and intense competition.

For OSINT purposes, the company demonstrates good information transparency through public filings, extensive online presence, and active participation in industry discourse.
